

We are a small and hands on firm specializing in Value Enhancement for our clients in the energy sector. Our core competencies are based upon many years of Industrial experience gained through key leadership positions in a variety of Subsea and Offshore companies.

In order to have unique insights, which help enable great strategy, we believe it to be essential to have the hands-on experience of leading and managing businesses in the sectors our clients operate. This operational and industrial experience enables a deeper understanding of the challenges and opportunities our clients face.

We are based in both Bergen, on the west coast of Norway, and Dubai, in the Middle East. Bergen is renowned as one of the energy industry's major maritime and subsea centers of excellence.
